ANOTHER chapter in international history has closed with the passing of America's great war president.

In fuller measure than any of his predecessors he recognized our kinship with the great family of nations. No leader of men in any age revealed a deeper sincerity of purpose, or offered a readier sacrifice for principle and conviction.

He consecrated the great gifts of his mind and the strength of his body to the attainment of an ideal—the brotherhood of nations. Knowing that all high ideals claim many martyrs, he made the utmost sacrifice without misgiving or complaint.

No prouder record than this was ever graven on a national hero's epitaph.

No cost if it fails.

That Infected Sebarn in Your Hails

We have discovered that 91% of all falling hair, thin hair, dull hair—is due to infected Sebum.

Sebum is an oil. It forms at the follicles of the hair. Its natural function is to lubricate the hair.

But often it becomes infected. It cakes on the scalp; clogs the follicles and plugs them. Go to the mirror, and you can see it in your hair in the form of an oil, or when accumulated and dried with other ingredients, as dandruff.

Germs by the millions breed in the Infected Sebum. Then they feed upon the

hair. Soon it begins falling. You note too how lifeless your hair appears. In a short time, all the natural lustre and beauty are gone. Now Opercome Remove the Infected Se-burn and the hair comes back tolife—to the softness and brilliancy of your schoolard days

What Is It Worth to You?

What are you willing to pay to find a tenant for that vacant apartment? Isn't the rental you should be getting worth working for? The necessary work isn't so hard, at that, for Want Ads will do most of it for you. And they cost only a small fraction of the income you will receive.

"This Want Ad, printed January 27, brought 15 or 20 answers and rented the apartment," said Mrs. C. T. Hicks, 6810 Dorchester Ave. "We are very well pleased with Tribune Want Ads."

It is cheaper to use good Want Ads and find a tenant than to go without both. For the best in Want Ads, phone Central 0100, or bring your Ad to Madison and Dearborn to

It represents couthern opinion and the southern view of the facts of the civil was and particularly of the reconstruction of the southern states after the war, when the federal army was sent back to see that the Negro had full political rights under the fourteenth and fifteenth amend ments.

The wisdom and humanity of the government in

The wisdom and humanity of the government in that period may be questioned. It was a time of bitterness. We do not indorec the ideas of Griffith, but it is a southern expression and we do not recall that it provoked much resentment in the north as an interpretation of history. That vivid fanatic, Thaddeus Stevens, for instance, was vicionally manhandled, but sectional animosities are about dead, at least in the north, and there was not much of a flutter on that point.

What did make trouble was the portrayal of the emancipated Negroes and their terrorism of the whites under the protection of suddery. The rapid growth of Negro population in such northern cities are also in the northern cities.

One Reason for Nervous Disorders

VOUR doctor can tell you that L nervous disorders are very common among Americans. One reason for this is found in the fact that they are great coffee drinkers.

Coffee contains caffeine, a drug, prescribed by doctors as an emergency stimulant for the heart and nervous system. It has a tendency to increase blood pressure, develop heart irregularities and cause digestive disturbances.

If you feel that coffee is not good for you, serve Postum as your mealtime drink.

Postum is a pure cereal beverage that refreshes and satisfies. It is absolutely free from caffeine or any other irritating drug.

Try a cup of Postum with your dinner or supper tonight. Postum is sold everywhere.

These careful and impartial tests prove that the FAB way is the better way to wash. They show by actual figures that materials washed with FAB wear better.

FAB, you see, is the safe soap flakes for all your washing. FAB is made with cocoanut-oil, that is so gentle, and yet so sudsy and cleansing. FAB flakes dissolve at once and completely in water. They make a rich, plentiful suds that flow freely back and forth through the fabric. It's these free-flowing FAB suds that take out the dirt and restore dainty cleanness. And FAB will not "run" colors that are fast in plain warm water, under the same conditions.

A flame that burned with most astonishing brilliance has consumed the substance from which it arose and has flickered out.

I For the most part, those great men whose glory has been won in circumstances comparable to those surrounding Wilson are denied, as was he, enjoyment of the soft sweet lights and shadows that linger where life's longest pathways are finally lost in the woods of peaceful old age. Wilson has paid his full share of at least one of the several prices of greatness.

Men are great not alone for their positive virtues of accomplishment but also for their negative virtues of resistance, and Wilson was great in both. The tumult of controversy that raged about him need not give increase of sorrow to those who believe as did he. Because he was great it had to be.

Who shall state the exact measure of a great man's endowment and attainments? Nor is there need for such sharp definition. In Wilson's ideals and accomplishments are good reasons for pride upon the part of all Americans. He has earned the respect, veneration and homage of all intelligent people wheresoever they

The timid salesman and the bold booklet

A GOOD salesman can do many things that a printed booklet cannot do. But in fairness to good printing, there are certain places where a good booklet has advantages over an untrained salesman.

A good piece of printed sales-manship is never timid. It is never self - conscious, never frightened by the buyer's indifference, never deceived by the buyer's hints that he can ger a better price elsewhere.

The printed message is not op-pressed by the fear of losing an order. It never hesitates, never stammers, never fidgets, never looks at its watch, never forgets what it was told to say. It is never upset by telephone inter-ruptions, never looks for a place to deposit a half-burned cigar.

subject be changed, never gets led into a discussion of a com-petitor's goods or methods, and never forgets to go promptly when the interview is over.

Good printing is a salesman that always gets in and does not have to be trained by bitter experience. The experience of your printer if he specializes in high-grade work is sufficient to keep you from the pitfalls caused by poor paper or too hasty work.

Better printing is a combination of the work of better printers and better paper. It is simple to employ the first, it is easy to select the second. In fact, the employment of a good printer usually means that you will certainly have your work A good booklet never lets the and standard quality.

Our expert fitting service assures you satisfaction

One hundred years ago an English bricklayer invented a new building material. He called it portland cement. Today the whole world is using it, in the form of Concrete, to "build for permanence."

Think of the giant achievements of this all-important material—especially within the last twenty years.

Under the hurrying feet of multitudes, under the pounding

tread of traffic, in teeming marts, and on countless farms, it is solidly serving the basic needs of our modern civilization.

Travel north from the great Galveston Sea Wall to the towering grain elevators of Minnesota. Travel west from the subways and skyscrapers of New York to the huge docks of the Pacific. Throughout the land you will see the monuments to permanence reared by Concrete.

You will see Concrete bridges, viaducts, dams, siles, manufacturing plants and office buildings.

You will see firesale Concrete hospitals, schools, theaters, hotels, apartment buildings and homes.

You will see also a steadily increasing system of Concrete streets and roads, linking more closely together towns, cities and rural districts.

In considering these achievements of Concrete, the Cement Industry recognizes deep indebtedness to architects, engineers, builders and contractors.

The Industry recognizes also that its usefulness will continue to be measured by the value of the service it renders to those who use Concrete or have it used for them.

In this spirit, eighty-five separate cement manufacturing companies in the United States, Canada, Mexico, Cuba and South America maintain this association to improve and extend the uses of Concrete.

No doubt the explanation of the slice when you play the ball a bit further away is that you start the club back outside the ball, especially if you use an upright swing, and let the arms work out too far from the body. In teeing the ball further away and bending over as suggested above, make a point of swinging the club more around the body and not too straight u. Keeping the arms well in to the side will do this. During the Day?

Have you ever considered what is meant by the hundreds of cars parked in the business sections during working hours?

Most of them carried business men to work,

leaving their wives and families at home, marooned because the family's one car is in daily use by the husband and father.

That is one reason why architects and builders now find that all suburban and many city homes must be provided with twin garages. The Chevrolet Utility Coupé with high-grade body makes an ideal extra car, especially in combination with a 5-passenger touring or

Rickard is a big man in the boxing racket. He promotes all the extravagances of the sport, and he does it properly. There never is complaint from a ticket holder that he doesn't get what he pays for. His palaces of pugitism always are well policed; there is little complaint over rowdyism; and pickpockets seem to favor other fields. Tex knows he is the big cheese hereabouts when it comes to boxing. He got into the rut when he thought he was char, instead of Muldoon. He seemed to think that he could tell the politicians where to head in. His attitude proved a boomerang. The politicians now are telling him where to get off.

If VICTOR FRIDAY

If Johnny Meyers, claimant of the middleweight wrestling championship, defeats Sammy Sandow of California in their finish match at the Star and Garter Friday, he will challenge Karl Pojello, who claims the world's light heavyweight title.

Meyers, who is training every day at the Arcade, yesterday asserted he has defeated every grappler of note in the 158 pound division, and now seeks new fields to conquer. Johnny admitted it is rather hard to keep on making the middleweight poundage. He claims he can wrestle better when scaling around 176 pounds.

Sandow is training every day at Ferretti's gym, where other grapplers who, have been working with him claim he is much stronger than Meyers, and that he can win in straight falls. SIMMONS' BEDS MIDWEST LOOP

MAT GIANT SET FOR ZYB'S BAG OF TRICKS

BY WALTER ECKERSALL. in the time that Rickard has promoted aghts here, he has given many of the politicians the icy stare when it came to presenting them with invitations to his shows.

With youth on one side and age and experience on the other, Hans Steinke, 26 year old grappler from Germany, will take holds with Example.

Steinke is rated one of the best Greco-Roman style wrestlers who has come to this country in years, but he is lacking in his knowledge of the offensive and defensive tactics of American methods. He may offset this handicap by his great strength. His huge weight, 27, pounds, may be a means of wearing down the gritty Pole.

Another factor to be considered is endurance. In his exhibitions and matches in and around Chicago, the German has displayed a lot of waste motion. He makes numbers of useless moves, and this sort of work is bound to tire him as the struggle advances. On the other hand, Zbyszko does not exert himself until forced to do so. He bides his time, allows his opponents to wear themselves out, and then starts in to finish them.

New York, Feb. 5.—Babe Ruth's contract with the New York Yankees has three years more to run at an annual figure of \$52,000. In round figures, the Babe's salary will be a quarter of a million for the five year period, but from a variety of sources, including barnstorming, his earnings may double that amount.

An interesting story is told of the conference between Ruth and Col.

T. L. Huston, former part owner of the Yankeps, at which the contract was signed. After agreeing on \$50,000 as his yearly salary, Babe said: "Now I ought to have \$10,000 for signing."

Col. Huston demurred at first but finally suggested that they "shake" for it. They rolled out a pair of dices and Ruth won, but it then was agreed and Ruth won, but it then was agreed and Ruth won, but it then was agreed that the \$10,000 be distributed at the rate of \$2,000 annually, thus practically boosting the salary to \$52,000.

Babe Must Behave.

One clause of the contract is designed to keep Ruth on the straight and narrow path. Under it the

other month until the end of the sea-son when the slugger is handed a check for \$26,000.

Last fall he speat a good share of this amount in adding improvements to his winter home and far mat Sud-

"You're not going too heavy, are you?"

"Don't worry. You and I are going to need it. But I ordered all the extra stuff held over. It won't get in until late this summer. Cron won't know about it until it lands here. Far as he can see, we're going along at the same old pace. Then in the fall, when it's too late for him to make a move, he'll see we're branching out and going after him all along the line."

"Lad." Andy grinned, "buying fur is a great game, isn't it?"

"Great!" Rod repeated impulsively, and then he laughed.

"Pretty near as good as the thing you wanted to do in New York, eh?"
Andy persisted.

and grinned.

"Do you know what's happened in the last month, quite often?" he demanded. "There have been times when I felt exactly about the fur game as I used to about writing. I had the same emotions, that same bursting sensation, partly physical. I would make endless plans and I thought that if I couldn't put them into effect at once I'd explode. I worked out details that seemed marvelous and"—again he laughed frankly—"I began to see my-self as a genius in the fur trade, just as I used to dream of being a genius as a

"Yes, and having a hard proposition to buck. We've licked The Spider the men their rations and I'll see that things are shipshape in the warehouse."

He walked briskly across the trade shop and out the door. George, who was busy behind the counter, watched him curiously and then turned to see Andy Parr come out of the office. Their eyes met for a moment and then Andy walked slowly forward.

"Funny thing about these Norwoods," he said casually. "There's no two of 'em alike and yet each time they seem to get better."

"You think he kill Ehe-bik?" George demanded eagerly.

"Kill him!" Andy repeated contemptuously. "No, Rod won't kill him. He's just going to pick him to pieces and cook him in hot tallow and use his him for shoe leather and boil his bones to get grease to make the leather waterproof.

Anger had suddenly possessed him and George Paul's eyes glowed with

PHILADELPHIA TRUST COMPANY, TRUSTEE

Mr. J. M. Humphrey, President of the Lehigh Valley Coal Company, has summarized his accompanying letter as follows:

The Lehigh Valley Coal Company is one of the largest producers of anthracite in the United States. Its properties are located in the Eastern Pennsylvania coal fields and include 40,966 acres of land owned in fee, of which 24,534 acres are coal bearing. It is conservatively estimated that this coal bearing acreage contains over 528,000,000 gross tons of unmined merchantable anthracite. In addition, the company leases lands estimated to contain over 110,000,000 gross tons of unmined merchantable anthracite recoverable during the term of the leases. At the present rate of production, it is estimated that the company's owned and leased properties have an operating life of over ninety years.

The first and sefunding mostgrage sinking fund.

The first and refunding mortgage sinking fund bonds will be secured by first mortgage on acreage containing approximately 76% of the unmined anthracite tonnage owned in fee by the company and upon all improvements thereon, and upon leases which run to exhaustion covering lands estimated to contain over 60% of the company's unmined leased tonnage (excluding term leases). The bonds will be further secured by direct mortgage on acreage containing

gage upon the entire anthracite property of the Company owned in fee. The First and Refunding Mortgage will provide that bonds may be issued thereunder to an amount not exceeding \$40,000,000 in the aggregate, including reserved bonds. For the five years ended December 31, 1923, the net earnings of the Company, after all operating expenses, maintenance, taxes (except Federal taxes), and adequate allowances for depletion and depreciation have averaged \$4,957,210 per annum. The annual interest charge on all funded debt of the Company now outstanding, including this issue, is \$1,311,700. Net earnings, therefore, have averaged over three and three-quarters times the above annual interest charges.

The Mortgage will provide for a sinking fund

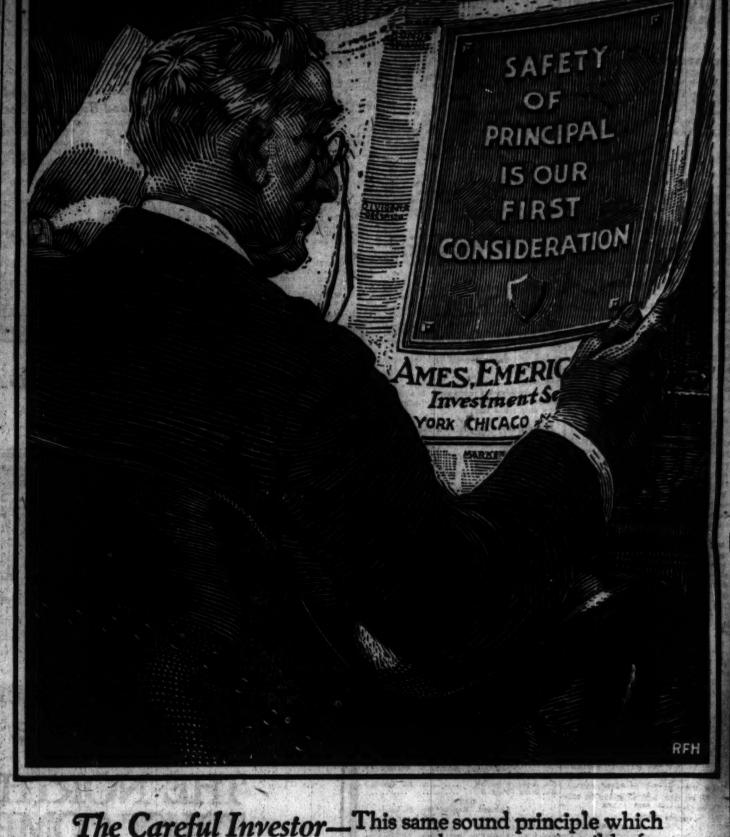

times the above annual interest charges.

The Mortgage will provide for a sinking fund payment of five cents per gross ton on anthracite of all sizes mined from lands owned, operated, or leased by the Company and sold or commercially used, with a minimum sinking fund payment of \$250,000 in every year, to be used for the purchase or redemption of bonds of this series, which shall be kept alive in the fund until maturity. Additional sinking fund payments will be provided in respect of subsequent series. The proceeds of the sale of this Series of Bonds, in accordance with the final decree of the United States District Court, will be paid over to the Lehigh Valley Railroad Company as provided in the Plan of Segregation.

Equitable Trust Co., New York City Transfer Agent CAPITALIZATION

Authorized \$1,150,000 To be present.

Mr. A. F. Stone, President, summarizes from his letter as follows:

History: The F. & W. Grand 5-10-25 Cent Stores, Inc., was organized under New York State laws in March, 1915, succeeding a firm which under the same management had been engaged in the 5-10-25c. store business since 1901. The firm started in a small store on Grand Street, New York City, with a capital of \$5,000 in 1901. With the exception of \$50,000, realized after incorporation in 1915 from sale of Preferred Stock. the development of the business from inception has been financed out of earnings, \$55,000 being all the actual capital ever contributed. Over \$600,000 has been paid out of the business in cash since its inception, for outside investment and the purchase of the interests of a large stockholder.

Business: The Company conducts a chain of twenty-three (23) 5-10-25c, and \$1.00 stores well located in fowns and cities East of Pittsburgh, Pa., which have been in active operation for periods ranging from twenty-two years to a few months. Seven of these stores are located in Greater New York, the remainder in Hartford and New Haven, Connecticut; Providence, Rhode Island; Yonkers and Troy, New York; Jersey City, Newark, Elizabeth and Plainfield, N. J.; Philadelphia, Pittsburgh, Easton, Allentown and Reading, Pa., and Baltimore, Maryland. The Company does the same general line of business as Kresge, Woolworth and other well known chain stores.

Assets: The Net Tangible Assets as shown by the certified balance sheet as of December 31, 1923, after all depreciations (with no allowance for value of leases or for any good will) after giving effect to the new financing were \$1,986,236.41, or over \$172 per share for the Preferred Stock, Net Current Assets being \$1,268,610.81 or over \$110 per share for the Preferred Stock.

The Company agrees that no dividend shall be paid upon its common stock at any time if net tangible assets are less than 125%, or net current assets less than 100%, of its outstanding Preferred Stock.

Sales and Earnings: Net earnings as shown by certified audit (after allowance for taxes at 1923 rates and including interest on loans saved by this financing) and percentage of profits to sales before taxes for past three years were as follows:

1921.....\$3,650,131.28 \$139,032.09 1922...... 4,313,687.02 1923:..... 5,409,779.31 10.72

The average net profits for three years ended December 31st, 1923, after depreciations and Federal Tax computed at the 1923 rates, were equal to over 4 times the annual dividend requirements on the \$1,150,000 Preferred Stock, and for 1923 were over 61/2 times the annual Preferred Dividend.

Purpose of Issue: The proceeds derived from the sale of the Preferred Stock will remain in the business for working capital and the opening of additional stores.

Management: The management and control of the Company remain unchanged.

Application will be made to list both Preferred and Common Stocks on the New York Stock Exchange

They are further secured by deposit of \$850,000 of the Potomac Public Service company first and refunding bonds, which bonds are also secured by deposit of \$60,000 and the surplus \$18,000. The president is George M. Hayes and the achier Howard L. Huhn.

Call for Capital! \$500,000

Here is an opportunity for not more than five investors, with available funds ranging from \$50,000 to \$200,000 each, to secure an active participating and director's interest in a holding company to take over entire ownership of two producing companies with aggregate assets in excess of a million.

Both businesses are stable and well organized Illinois corporations, one being the outlet for the product of the other. The company being acquired by this new fiscal arrangement has been established for 32 years and controls two-thirds of the business in its line in this territory.

This merger is made possible by the decision of the owner of one company to withdraw his interests at a personal sacrifice that his time may be devoted exclusively to even larger interests elsewhere.

To facilitate negotiations, interested investors are asked to give sufficient indication of financial worth in their first communication to indicate their ability to participate in this proposition when all the facts have been presented to them. Brokers or bond concerns need not apply.
